PARENT COMPANY ONLY FINANCIAL
STATEMENTS AND INDEPENDENT AUDITORS’
REPORT

DECEMBER 31, 2023 AND 2022

For the convenience of readers and for information purpose only, the auditors’ report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors’ report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Hon Hai Precision Industry Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Hon Hai Precision Industry Co., Ltd. (hereinafter referred to as 'Hon Hai') as at December 31, 2023 and 2022, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the reports of other independent auditors (please refer to the Other matter section), the accompanying parent company only financial statements present fairly, in all material respects, the financial position of Hon Hai as at December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the parent company only financial statements* section of our report. We are independent of Hon Hai in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the reports of other independent auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of Hon Hai's 2023 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for Hon Hai's 2023 parent company only financial statements are stated as follows:

Cut-off of hub sales revenue

Description

Refer to Note 4(29) for accounting policies on revenue recognition.

Hon Hai recognises revenue upon acceptance of the goods by the customers (when control of the products is transferred) if picked up from hub. For pick-ups from hub, Hon Hai recognises sales revenue based on movements of inventories contained in the statements or other information provided by the hub

custodians. As the hubs are located around the world with numerous custodians, the frequency and contents of statements provided by custodians vary, and the process of revenue recognition involves numerous manual procedures, these factors may potentially result in inaccurate timing of sales revenue recognition and the discrepancy in inventory quantities between the physical inventory and accounting records.

As there are numerous daily sales revenue transactions from hubs and the transaction amounts prior to and after the balance sheet date are significant to the financial statements, we identified the cut-off of hub sales revenue as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Assessed and tested the appropriateness of internal controls over the cut-off of hub sales revenue for a specific period prior to and after the balance sheet date, including agreeing to respective supporting documents provided by hub custodians, and validated the proper timing of recognising movements of inventories and respective transfer of cost of goods sold.
- B. Confirmed or conducted physical count of inventory quantities held at hubs and agreed to accounting records.

Allowance for inventory valuation losses

Description

Refer to Note 4(13) for accounting policies on inventory valuation, Note 5(2) for uncertainty of accounting estimates and assumptions in relation to inventory valuation losses, and Note 6(6) for details of inventories. As of December 31, 2023, Hon Hai's inventories and allowance for inventory valuation losses amounted to NT\$136,634,988 thousand and NT\$4,290,696 thousand, respectively.

Hon Hai and its subsidiaries are primarily engaged in manufacturing and sales of 3C electronic products. Due to rapid technological innovations, short lifespan of electronic products and fluctuations in market prices, there is a higher risk of inventory losses arising from market value decline or obsolescence. Hon Hai and its subsidiaries recognise inventories at the lower of cost and net realisable value, and the net realisable value is estimated based on historical experience. An allowance for inventory valuation losses is provided for those inventories aged over a certain period and those individually identified as obsolete or damaged.

As the amounts of inventories are material, the types of inventories vary, and the estimation of net realisable value for individually obsolete or damaged inventories is subject to management's judgment, we considered the allowance for inventory valuation losses a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in relation to the provision for inventory valuation losses for individually obsolete or damaged inventories:

- A. Ensured consistent application of accounting policies in relation to allowance for inventory valuation losses and assessed the reasonableness of these policies.

- B. Validated the appropriateness of system logic of inventory aging report utilised by management to ensure proper classification of inventories aged over a certain period.
- C. Evaluated the reasonableness of inventories individually identified as obsolete or damaged by checking the related supporting documents and comparing with the information obtained from physical inventory count.
- D. Discussed with management the net realisable value of inventories aged over a certain period and individually identified as obsolete or damaged, validated respective supporting documents and reperformed the calculation.

Other matter – Reference to audits of other independent auditors

We did not audit the financial statements of certain investments accounted for under the equity method. Those financial statements were audited by other independent auditors, whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the parent company only financial statements and other related information disclosed in Note 13, relative to these investments accounted for under the equity method was based solely on the reports of other independent auditors. As of December 31, 2023 and 2022, the balances of these investments accounted for under the equity method amounted to NT\$30,763,306 thousand and NT\$35,018,967 thousand, constituting 0.90% and 0.98% of total assets, respectively, and the related comprehensive (loss) income (including the share of profit or loss in subsidiaries, associates and joint ventures accounted for under the equity method and the share of other comprehensive income in subsidiaries, associates and joint ventures accounted for under the equity method) amounted to (NT\$4,394,223) thousand and NT\$7,184,989 thousand, constituting 3.94% and 4.77% of total comprehensive income for the years then ended, respectively.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing Hon Hai’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Hon Hai or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing Hon Hai’s financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hon Hai's internal control.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Hon Hai's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within Hon Hai to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

HON HAI PRECISION INDUSTRY CO., LTD.

NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED)

1. HISTORY AND ORGANISATION

Hon Hai Precision Industry Co., Ltd. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The Company is primarily engaged in the manufacture, sales and service of connectors, case, thermal module, wired/wireless communication products, optical products, power supply modules, and assemblies for use in the IT, communications, automotive equipment, precision molding, automobile, and consumer electronics industries.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorised for issuance by the Board of Directors on March 14, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS®”) issued by International Accounting Standards Board (“IASB”) and came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by IASB</u>
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023
Amendments to IAS 12, ‘International tax reform - pillar two model rules’	May 23, 2023

Except for the following, the above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment. The quantitative impact will be disclosed when the assessment is complete.

Amendments to IAS 12, “International tax reform - pillar two model rules”

The amendments give companies temporary relief from accounting for deferred income taxes arising from the tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (OECD). An entity shall neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

(2) Effect of new issuances of or amendments to IFRS issued by the IASB as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRS issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

Unless otherwise stated, the principal accounting policies applied in the preparation of these parent company only financial statements set out below have been consistently applied to all the periods presented.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

(2) Basis of preparation

A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC® Interpretations, and SIC® Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- (3) Foreign currency translation
- A. The parent company only financial statements of the Company are presented in New Taiwan Dollars, which is the Company’s functional and presentation currency.
- B. Foreign currency transactions and balances
- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.
 - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
 - (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
 - (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within “other gains and losses”.

C. Translation of foreign operations

- (a) The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation of an associate is partially disposed of or sold, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Company still retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Company retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- (d) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;

- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the above criteria and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(8) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
- (a) The objective of the Company's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Company's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- C. The Company's operating pattern of accounts receivable that are expected to be factored is for the purpose of receiving contract cash flow and selling, and the accounts receivable are subsequently measured at fair value, with any changes in fair value recognised in other comprehensive income.

(10) Impairment of financial assets

For financial assets at amortised cost including accounts receivable that have a significant financing component, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Company derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred; and the Company has not retained control of the financial asset.

(12) Leasing arrangement (lessor) – Lease receivable / Operating lease

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(14) Investments accounted for under the equity method / associates

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealised gains or losses occurred from the transactions between the Company and subsidiaries have been offset. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company continues to recognise losses proportionate to its ownership.
- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- E. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- F. The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in an

associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

- G. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- H. Unrealised gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- I. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of or transferred to retained earnings directly according to the requirements in IFRSs.
- J. Upon loss of significant influence over an associate, the Company remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognised in profit or loss.
- K. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of or transferred to retained earnings directly according to the requirements in IFRSs. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- L. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss proportionately.

M. Pursuant to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, profit (loss) of the current period and other comprehensive income in the non-consolidated financial statements shall equal to the amount attributable to owners of the parent in the financial statements prepared with basis for consolidation. Owners' equity in the non-consolidated financial statements shall equal to equity attributable to owners of the parent in the financial statements prepared with basis for consolidation.

(15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. While land is not depreciated, other property, plant and equipment that apply cost model are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each component of property, plant and equipment that is significant in relation to the total cost of the item is depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows

Buildings	15 ~ 51 years
(Auxiliary buildings	5 ~ 11 years)
Machinery and equipment	3 ~ 9 years
Other equipment	1 ~ 6 years

(16) Leasing arrangements (lessee) - right-of-use assets / lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - (a) Fixed payments, less any lease incentives receivable;

- (b) Variable lease payments that depend on an index or a rate;
- (c) Amounts expected to be payable by the lessee under residual value guarantees;
- (d) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
- (e) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognise the difference between remeasured lease liability in profit or loss.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognising impairment loss for an asset in prior periods no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(18) Borrowings

Borrowings comprise short-term bank borrowings and short-term loans. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the

redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:
 - (a) Hybrid (combined) contracts; or
 - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
 - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. At initial recognition, the Company measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Company subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.
- C. If the credit risk results in fair value changes in financial liabilities designated as at fair value through profit or loss, they are recognised in other comprehensive income in the circumstances other than avoiding accounting mismatch or recognising in profit or loss for loan commitments or financial guarantee contracts.

(21) Bonds payable

Ordinary corporate bonds issued by the Company are initially recognised at fair value less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to 'finance costs'.

(22) Convertible bonds payable

Convertible bonds issued by the Company contain conversion options (that is, the bondholders have the right to convert the bonds into the Company's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Company classifies the bonds payable upon issuance as a financial asset, a financial liability or an equity instrument in accordance with the contract terms. They are accounted for as follows:

- A. The host contracts of bonds are initially recognised at fair value. Any difference between the initial recognition and the redemption value is accounted for as the premium or discount on bonds payable and subsequently is amortised in profit or loss as an adjustment to 'finance costs' over the period of circulation using the effective interest method.
- B. The embedded conversion options which meet the definition of an equity instrument are initially recognised in 'capital surplus—share options' at the residual amount of total issue price less the amount of financial assets or financial liabilities at fair value through profit or loss and bonds payable as stated above. Conversion options are not subsequently remeasured.
- C. Any transaction costs directly attributable to the issuance are allocated to each liability or equity component in proportion to the initial carrying amount of each abovementioned item.
- D. When bondholders exercise conversion options, the liability component of the bonds shall be remeasured on the conversion date. The issuance cost of converted common shares is the total book value of the abovementioned liability component and 'capital surplus—share options'.

(23) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(24) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(25) Non-hedging and embedded derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(26) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(27) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred income tax is recognised, using the balance sheets liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the end of the financial reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(28) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(29) Revenue recognition

- A. The Company manufactures and sells consumer electronics products. Sales are recognised when control of the products have transferred, being when the products are delivered to or picked by the customers, the customers have full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's

acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.

- B. Sales revenue is recognised based on the price specified in the contract, net of the estimated sales discounts and allowances. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. The contract cost does not include a significant financing component as the sales are made with credit term consistent with market practice.
- C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.
- D. The Company's obligation to provide a refund for faulty products under the standard warranty terms is recognised as a provision.
- E. The customer pays at the time specified in the payment schedule. If the products sold exceed the payment, a contract asset is recognised. If the payments exceed the products sold, a contract liability is recognised.

5. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS ON UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgments in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The above information is addressed below:

(1) Critical judgments in applying the Company's accounting policies

Revenue recognition

The Company determines whether the nature of its performance obligation is to provide the specified goods or services itself (i.e. the Company is a principal) or to arrange for the other party to provide those goods or services (i.e. the Company is an agent) based on the transaction model and its economic substance. The Company is a principal if it controls a promised good or service before it transfers the good or service to a customer. The Company recognises revenue at gross amount of consideration to which it expects to be entitled in exchange for those goods or services transferred. The Company is an agent if its performance obligation is to arrange for the provision of goods or services by another party. The Company recognises revenue at the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the other party to provide its goods or services.

After receiving the materials or services procured, the Company directs the use of the goods and services and provides critical manufacturing processing technique, in order to produce and significantly integrate various goods and services into the combined output as the resulting devices and transfers to a customer. The following indicators are used to determine whether the Company controls the good or service before it is transferred to a customer and considers itself as a principal:

- A. The Company is primarily responsible for the provision of goods or services;
- B. The Company assumes the inventory risk before transferring the specified goods or services to the customer or after transferring control of the goods or services to the customer.
- C. The Company has discretion in establishing prices for the goods or services.

(2) Critical accounting estimates and assumptions

The Company makes estimates and assumptions based on the expectation of future events that are believed to be reasonable under the circumstances at the end of the reporting period. The resulting accounting estimates might be different from the actual results. The estimates and assumptions that may significantly adjust the carrying amounts of assets and liabilities within the next financial year are addressed below:

A. Impairment assessment of investments accounted for using equity method

The Company assesses the impairment of an investment accounted for using equity method and the goodwill it contains as soon as there is any indication that it might have been impaired and its carrying amount cannot be recovered. The Company assesses the recoverable amounts of an investment accounted for under the equity method based on the present value of the Company's share of expected future cash flows of the investee, and analyses the reasonableness of related assumptions.

As of December 31, 2023, the Company's goodwill included in the investments accounted for under the equity method, net of impairment loss, amounted to \$8,264,779.

B. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date based on judgments and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be significant changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$132,344,292.

(a) Cross currency swap contracts

The cross currency swap contracts signed by the Company are to fulfill capital movement. For exchange rate, principals denominated in two currencies are exchanged at the same exchange rate at the initial and final exchanges. Thus, there is no foreign exchange risk. For interest rate, the fixed rate between two currencies is used to exchange. Thus, there is no interest rate risk.

(b) Forward foreign exchange contracts

The Company enters into foreign exchange forward transactions to reduce the following risk of exchange rate:

- i. Operating activities: Import of raw materials and export sales.
- ii. Investing activities: Import of machinery and equipment.
- iii. Financing activities: Long-term and short-term foreign currency assets and liabilities.

D. The Company has no financial assets at fair value through profit or loss pledged to others.

E. Information relating to credit risk of financial assets and liabilities at fair value through profit or loss is provided in Note 12(2).

(3) Financial assets at fair value through other comprehensive income - non-current

Items	December 31, 2023	December 31, 2022
Equity instruments at cost	\$ 13,155,171	\$ 3,414,582
Fair value adjustments	(240,393)	(321,007)
Listed and unlisted stocks	<u>\$ 12,914,778</u>	<u>\$ 3,093,575</u>

A. The Company has elected to classify equity investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income.

B. Amounts recognised in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	Years ended December 31,	
	2023	2022
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognised in other comprehensive income (loss)	<u>\$ 80,614</u>	<u>\$ (1,832,084)</u>
Cumulative gain reclassified to retained earnings due to derecognition	<u>\$ -</u>	<u>\$ 359</u>
Dividend income recognised in profit or loss	<u>\$ 10,360</u>	<u>\$ 165,163</u>

C. The Company has no financial assets at fair value through other comprehensive income pledged to others.

D. Details of the Company's investments in equity instruments are provided in Table 3.

(4) Financial assets at amortised cost and other current assets

Items	December 31, 2023	December 31, 2022
Non-current items:		
Financial bonds	\$ 1,600,000	\$ -
Pledged time deposits	34,200	43,600
	<u>\$ 1,634,200</u>	<u>\$ 43,600</u>

A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

	Years ended December 31,	
	2023	2022
Interest income	<u>\$ 11,699</u>	<u>\$ -</u>

B. The counterparties of the Company's investments in unsecured bonds are financial institutions with high credit quality, so the Company expects that the probability of counterparty default is remote.

C. Information relating to financial assets at amortised cost pledged as collateral is provided in Note 8.

(5) Notes and accounts receivable

	December 31, 2023	December 31, 2022
Notes receivable	\$ 5,176	\$ 13,480

	<u>\$ 299,402,292</u>	<u>\$ 449,731,033</u>

- A. As of December 31, 2023 and 2022, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables from contracts with customers amounted to \$712,829,763.
- B. On December 31, 2023 and 2022, the Company had accounts receivable classified as financial assets at fair value through other comprehensive income in the amounts of \$86,795,129 and \$89,826,750, respectively.
- C. The Company entered into a factoring agreement with the following banks to sell its accounts receivable. Under the agreement, the Company is not obligated to bear the default risk of the transferred accounts receivable, but is liable for the losses incurred on any business dispute. The Company does not have any continuing involvement in the transferred accounts receivable. Thus, the Company derecognised the transferred accounts receivable.

As of December 31, 2023 and 2022, the relevant information of accounts receivable factored but unsettled were as follows:

December 31, 2023			
Accounts receivable factoring not yet due	Amount of accounts receivable derecognised	Amount advanced	Amount of consideration retained
<u>\$ 35,009,400</u>	<u>\$ 35,009,400</u>	<u>\$ 35,009,400</u>	<u>\$ -</u>

<u>\$ 27,639,000</u>	<u>\$ 27,639,000</u>	<u>\$ 27,639,000</u>	<u>\$ -</u>

As of December 31, 2023 and 2022, the Company has no retention for the factoring of accounts receivable.

- D. As of December 31, 2023 and 2022, the Company has not signed promissory notes as guarantee for accounts receivable in commercial dispute.
- E. For the years ended December 31, 2023 and 2022, the information on the financing charges incurred from accounts receivable factoring is provided in Note 6(23).
- F. The Company does not hold any collateral as security.
- G. Information relating to credit risk is provided in Note 12(2).

A. First overseas convertible bond issue of 2017

- (a) The Company issued the first overseas unsecured convertible bonds totaling USD 500 million with the approval of the competent authority on August 22, 2017. The bonds carry zero coupon rate over five years. The circulation period is from November 6, 2017 to November 6, 2022.
- (b) The conversion options for the first overseas convertible bond issue of 2017 are separated from the liabilities and recorded as ‘capital surplus – share options’ amounting to \$1,099,253. The convertible bonds matured on November 6, 2022. The convertible corporate bonds were not converted into ordinary shares, therefore, ‘capital surplus - share options’ was reclassified to ‘capital surplus - share premium’.

B. First overseas unsecured convertible bond issue of 2021

- (a) The Company issued the first overseas unsecured convertible bonds totaling USD 700 million with the approval of the competent authority on May 26, 2021. The bonds carry zero coupon rate over five years. The circulation period is from August 5, 2021 to August 5, 2026. The Company will fully redeem the bonds at the price of the bonds’ face value plus -0.41% of the face value at the maturity date.

- (b) The conversion price is adjusted in line with the model specified in the conversion rules. As of December 31, 2023, no bonds were converted into common stock at the conversion price of NT\$147.932 in dollars (using the exchange rate of 1 USD: 27.978 TWD) which was adjusted by the Company on July 10, 2023 based on the conversion rules of the first overseas convertible bond issue of 2021.
 - (c) In accordance with the conversion rules, if the convertible bond is purchased (including purchased from the secondary market), early redeemed, or repaid at maturity by the Company, or if the convertible bond is converted into common stocks or redeemed by the bondholder, the bond is to be retired and will not be reissued.
 - (d) In accordance with the conversion rules, the rights and obligations of common stocks converted are the same as the outstanding ones previously subscribed.
 - (e) The conversion options for the first overseas convertible bond issue of 2021 are separated from the liabilities and recorded as 'capital surplus - share options' amounting to \$336,012.
 - (f) In accordance with the conversion rules, bondholders have the right to request the Company to redeem any bonds at the price of the bonds' par value upon three years from the issue date. As the bondholders of the convertible corporate bonds will be able to exercise the put options in the third quarter of 2024, the convertible corporate bonds were transferred to 'long-term liabilities, current portion' from the period. After the put options exceed their exercise period, the unexercised put options will be transferred back to 'bonds payable' if they met the definition of non-current liabilities.
- C. For details of principal, interest rate, maturity and other information of corporate bonds payable and foreign unsecured corporate bonds, refer to Statement 12.

(13) Pensions

A. Defined benefit plan

- (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law of Taiwan, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for

retirement in the following year, the Company will make contributions for the deficit by next March.

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings are less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	2023	2022
Discount rate	<u>1.20%</u>	<u>1.40%</u>
Future salary increases	<u>3.5%</u>	<u>3.5%</u>

Assumptions regarding future mortality rate are set based on actuarial advice in accordance with published statistics and experience in each territory. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2023				
Effect on present value of defined benefit obligation	<u>\$ (36,611)</u>	<u>\$ 37,940</u>	<u>\$ 33,585</u>	<u>\$ (32,650)</u>
	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2022				
Effect on present value of defined benefit obligation	<u>\$ (41,388)</u>	<u>\$ 42,951</u>	<u>\$ 38,312</u>	<u>\$ (37,194)</u>

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- (f) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2024 amount to \$12,717.
- (g) As of December 31, 2023, the weighted average duration of the retirement plan is 11 years.

B. Defined contribution plan

- (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The pension costs under the defined contribution pension plans of the Company for the years ended December 31, 2023 and 2022 were \$241,203 and \$232,503, respectively.

(14) Share capital–common stock

A. As of December 31, 2023, the Company's authorised capital was \$180,000,000, consisting of 18,000,000 thousand shares of ordinary stock, and the paid-in capital was \$138,629,906, consisting of 13,862,991 thousand shares with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

B. Pursuant to the resolution adopted at the stockholders' meeting held on June 1, 1999, and after obtaining approval from the SFC, the Company issued 50 million ordinary shares so as to issue 25 million units of Global Depository Receipts (GDRs) in Europe, Asia and the USA. The issuance amounted to USD 347,250 thousand, and the main terms and conditions of the GDRs are as follows:

(a) Voting

Holders of GDRs have no right to directly exercise voting rights or attend the Company's stockholders' meeting, except when a motion is on the election of directors or supervisors. A holder or holders together holding at least 51% of the GDRs outstanding at the relevant record date of the stockholders' meeting can instruct the Depositary to vote in the same direction in respect of one or more resolutions to be proposed at the meeting.

(b) Sale and withdrawal of GDRs

Under the current R.O.C. law, shares represented by the GDRs may be withdrawn by holders of GDRs commencing three months after the initial issue of GDRs. A holder of a GDR may, provided that the Company has delivered to the custodian physical share certificates in respect of the Deposited Shares, request the Depositary to sell or cause to be sold on behalf of such holder the shares represented by such GDRs.

(c) Dividends

GDR holders are entitled to receive dividends to the same extent as the holders of common stock.

(d) As of December 31, 2023, 64,930 thousand units of GDRs were outstanding, which represents 129,859 thousand shares of common stock.

C. Treasury stocks

The Company's subsidiary, Hon Jin International Investment Co., Ltd., acquired ordinary shares issued by the Company in 1998. As of December 31, 2023 and 2022, the subsidiary held a total of 1,483,078 shares of the Company's common stock. The original cost of treasury stocks was \$18,901, and the cost after capital reduction was \$15,194.

(15) Capital surplus

Pursuant to the R.O.C. Company Act, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital reserve to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit unless the legal reserve is insufficient. Movements in capital reserve are as follows:

Regarding the recognition of the capital surplus from changes in equity interests in associates, refer to Note 6(7) for details; expiration of stock options in convertible corporate bonds based on the redemption ratio, refer to Note 6(12) for details.

(16) Retained earnings

A. The annual net income of the Company shall be appropriated in accordance with the priorities listed as follows:

(a) Recovery of losses;

(b) Appropriation of 10% for legal reserve.

(c) Appropriation or reversal of special reserve pursuant to applicable law or regulation.

As to the earnings available for appropriation to shareholders including accumulated unappropriated earnings and earnings available for appropriation this year, the board of directors is authorised to draft an appropriation plan in accordance with the dividend policy in Section D of the Articles of Incorporation.

The board of directors is authorised to distribute dividends and bonuses in whole or in part, which may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors.

The Company is currently at a developing stage. The Company's dividend distribution policy is subject to the Company's current and future investment environment, fund requirements, competition from local and abroad, and capital budgets, as well as taking into consideration the interests of shareholders and the long-term financial planning. Shareholder dividends are appropriated based on accumulated unappropriated earnings, which shall not be less than 15% of distributable earnings for the year and cash dividends shall not be less 10% of total dividends.

B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.

C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

D. The appropriations of 2023 earnings were proposed during the board meeting on March 14, 2024. The appropriations of 2022 earnings had been resolved at the shareholders' meeting on May 31, 2023. Details are summarized as follows:

	2023		2022

The Company may adjust the purchase price and quantity according to the actual demand. As of the issuance date of the financial statements, all the above mentioned purchase price has been paid.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to operate with the goal to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet less the total intangible assets.

During 2023, the Company's strategy, which was unchanged from 2022, was to maintain the gearing ratio at 70% or below.

(2) Financial instruments

A. Financial instruments by category

Refer to the parent company only balance sheets and Note 6 for the amounts and details of the financial assets (financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets at amortised cost, accounts receivable (including related parties) and other receivables) and financial liabilities (financial liabilities at fair value through profit or loss, accounts payable (including related parties), other payables, short-term loans, long-term loans and corporate bonds payable).

B. Financial risk management policies

(a) Risk categories:

The Company employs a comprehensive risk management and control system to clearly identify, measure, and control the various kinds of financial risk it faces, including market risk (including foreign exchange risk, interest rate risk and price risk), credit risk, and liquidity risk.

(b) Management objectives:

- i. Except for market risk, which is controlled by outside factors, the remainder of the foregoing types of risks can be controlled internally or removed from business processes. Therefore, the goal in managing each of these risks is to reduce them to zero.
- ii. As for market risk, the goal is to optimize its overall position through strict analysis, suggestion, execution and audit processes, and proper consideration of a) long-term trends in the external economic/financial environment, b) internal operating conditions, and c) the actual effects of market fluctuations.
- iii. The Company's overall risk management policy focuses on the unpredictable item of financial markets and seeks to reduce the risk that potentially pose adverse effects on the Company's financial position and financial performance.
- iv. For the information on the derivative financial instruments that the Company enters into, refer to Notes 6(2).

(c) Management system:

- i. Risk management is executed by the Company's finance department by following policies approved by the Board. Through cooperation with the Company's operating units, finance department is responsible for identifying, evaluating and hedging financial risks.
- ii. The Board has a written policy covering overall risk management. It also has written policies covering specific issues, such as exchange rate risk, interest rate risk, credit risk, derivative and non-derivative financial instruments used, and the investment of excess working capital.

C. Significant financial risks and degrees of financial risks

(a) Market risk

i. Foreign exchange risk

(i) Nature:

The Company is a multinational company in the Electronics manufacturing services industry.

- a. Foreign exchange risk arises from different exchange rates to functional currency as the invoice dates of accounts receivable and payable denominated in non-functional foreign currency are different. Due to the characteristics of the subcontracting industry, the Company's revenue and expenditures are mostly denominated in foreign currency. Thus, the remaining net foreign exchange risk is not material after offsetting assets and liabilities. Furthermore, although the variations in currencies of the Company's certain foreign investments in emerging countries (i.e. Brasil and Mexico, etc.) are considered huge, the percentage of the investments is not significant and thus the

Company's foreign exchange risk can be maintained in the controllable range.
(Note: The Company has several sites in various countries and thus is exposed to various foreign exchange risks. The main risk arises from USD and RMB.)

- b. Except for the above transactions (operating activities) recognised in the income statement, assets and liabilities recognised in the balance sheet and the net investment in foreign operations also result in the exchange rate risk.

(ii) Management:

- a. For such risks, the Company has set up policies requiring companies in the Company to manage its exchange rate risks.
- b. As to the exchange rate risk arising from the difference between various functional currencies and the reporting currency in the consolidated financial statements, it is managed by the Group's finance department.

(iii) The source:

USD and TWD:

Foreign exchange risk arises primarily from USD-denominated cash, cash equivalents, accounts receivable and other receivables, loans, accounts payable and other payables, which results in exchange loss or gain when they are converted into TWD.

(iv) Extent:

The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

(Foreign currency: Functional currency)	December 31, 2023				
	Foreign currency amount (in thousands)	Exchange rate	Book value (TWD)	Sensitivity analysis	
				Extent of variation	Effect on profit or loss
<u>Financial assets</u>

<u>Monetary items</u>					
USD : TWD	\$ 56,503,162	30.71	\$ 1,735,212,100	5 %	\$ 86,760,605

(v) Total exchange gain (loss), including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2023 and 2022 amounted to (\$817,648) and (\$9,250,113), respectively.

ii Equity securities

(i) Nature

The Company primarily invests in domestic and foreign publicly traded equity instruments, which are accounted for as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. The price of those equity instruments will be affected by the uncertainty of the future value of the investment.

(ii) Extent

If such equity instruments' price rise or fall by 1%, with all other factors held constant, the impact on equity due to investments in equity instruments measured at fair value through other comprehensive income, and investments in equity at fair value through profit or loss are \$129,148 and \$30,936 for the years ended December 31, 2023 and 2022, respectively.

iii Cash flow and fair value interest rate risk

(i) The Company's interest rate risk arises from short-term loans. Borrowings with floating rates expose the Company to cash flow interest rate risk, but part of the risks are offset by cash and cash equivalents with variable interest rates. Borrowings with fixed rates expose the Company to fair value interest rate risk. The Company's borrowings are mainly fixed and floating interest rates.

(ii) The Company manages its cash flow interest rate risk by using fixed-to-fixed interest rate swaps. Under these swaps, the Company agrees with other parties to exchange, at specified intervals (mainly quarterly), the difference between fixed

contract rates and floating rate interest amounts calculated by reference to the agreed notional principal amounts.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments.

According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. The Company assesses the credit quality of the customers by taking into account their financial position, past experience and other factors to conduct its internal risk management.

Individual risk limits are set based on internal or external ratings in accordance with limits set by the board of directors. The utilisation of credit limits is regularly monitored. Major credit risk arises from cash and cash equivalents, derivative financial instruments and other financial instruments. The counterparties are banks with good credit quality and financial institutions with investment grade or above and government agencies, so there is no significant compliance concerns and credit risk.

- ii. The Company assumes that if the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition; if past due over 360 days, a default has occurred.
- iii. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) Default or delinquency in interest or principal repayments;
 - (iii) Adverse changes in national or regional economic conditions that are expected to cause a default.
- iv. The aging analysis of notes receivable and accounts receivable (including related parties) is as follows:

	December 31, 2023	December 31, 2022
Not past due	\$ 362,939,974	\$ 546,197,139
Up to 90 days	33,911,730	10,807,411
91 to 180 days	411,043	904,443
181 to 270 days	606,086	316,077
271 to 360 days	94,953	1,526
Over 361 days	3,296,469	3,284,054
	<u>\$ 401,260,255</u>	<u>\$ 561,510,650</u>

The above aging analysis is based on days overdue.

- v. The Company applies the following approaches to assess the expected credit losses (ECLs) of accounts receivable:
- (i) Assess the ECLs on an individual basis if a significant default has occurred to certain customers.
 - (ii) Classify the other customers' accounts receivable based on the Company's credit rating standards and estimates the ECLs using loss rate methodology or provision matrix.
 - (iii) Adjust the loss rates constructed from historical and recent information by taking into account the business cycle indicators of the National Development Council and forecasts of the Basel Committee on Banking Supervision.
 - (iv) As of December 31, 2023 and 2022, the individual provision for impairment of accounts receivable using loss rate methodology or provision matrix is as follows:

	Individual	Group 1	Group 2	Group 3	Group 4	Total
December 31, 2023						
Expected loss rate	100%	0.05%	0.11%	1.29%~28.57%	2.64%~20.7%

Group 1: Standard Poor's, Fitch's, or Moody's rating of A-level, or rated as A-level in accordance with the Company's credit policies for those that have no external credit ratings.

Group 2: Standard Poor's or Fitch's rating of BBB, Moody's rating of Baa, or rated as B or C in accordance with the Company's credit policies for those that have no external credit ratings.

Group 3: Standard Poor's or Fitch's rating of BB + and below, or Moody's rating of Ba1 and below.

Group 4: Rated as other than A, B, or C in accordance with the Company's credit policies for those that have no external credit ratings.

- vi. As of December 31, 2023 and 2022, the Company calculated the expected loss rate based on historical overdue repayment to assess other receivables - related parties impairment losses and no allowance for uncollectible accounts was recognised.
- vii. Movements in relation to the Company's loss allowance for accounts receivable (including related parties) is as follows:

	2023	2022
At January 1	\$ 3,968,052	\$ 2,949,059
(Reversal of) provision for impairment loss	(510,567)	1,018,993
At December 31	<u>\$ 3,457,485</u>	<u>\$ 3,968,052</u>

(c) Liquidity risk

- i. Cash flow forecasting is performed by each operating entity of the Company and aggregated by Company treasury. The Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable, external regulatory or legal requirements, for example, currency restrictions.
- ii. The table below analyses the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:

	<u>\$ 3,131,950</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,131,950</u>

Aside from those mentioned above, other non-derivative financial liabilities are to be settled within one year.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks and open-end funds is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in convertible corporate bonds payable, most of the derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value:

(a) Except for those listed in the table below, the carrying amounts of the Company's financial instruments not measured at fair value (including cash and cash equivalents, notes and accounts receivable, other receivables, financial assets at amortised cost (excluding bank debentures), short-term loans, notes and accounts payable and other payables approximate to their fair values:

December 31, 2023				
	Book Value	Fair Value		
		Level 1	Level 2	Level 3
Financial liabilities:				
Bonds payable	\$ 206,483,116	\$ -	\$ 197,600,500	\$ -
December 31, 2022				
	Book Value	Fair Value		
		Level 1	Level 2	Level 3
Financial liabilities:				
Bonds payable	\$ 167,233,116	\$ -	\$ 159,625,743	\$ -

(b) The methods and assumptions of fair value measurement are as follows:

Bonds payable: Regarding the bonds issued by the Company, the coupon rate approximates to the current market rate. Therefore, the fair value is estimated using the present value of the expected cash flows and market interest rate.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2023 and 2022 is as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

Liabilities:				
<u>Recurring fair value measurements</u>				
Financial liabilities at fair value through profit or loss				
Derivatives	\$ -	\$ (3,131,950)	\$ -	\$ (3,131,950)

- (b) The methods and assumptions the Company used to measure fair value are as follows:
- i. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares	Open-end fund
Market quoted price	Closing price	Net asset value

- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques method can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
 - iii. When assessing non-standard and low-complexity financial instruments, for example, interest rate swap contracts and foreign exchange swap contracts, the Company adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
 - iv. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
 - v. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Company's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Company's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
 - vi. The Company takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Company's credit quality.
- D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.

- E. The following chart is the movement of Level 3 for the years ended December 31, 2023 and 2022:

	2023	2022
	Equity instruments	Equity instruments
At January 1	\$ 1,307,538	\$ 307,575
Losses recognised in other comprehensive income	(437,425)	(604,914)
Acquired during the year	485,003	1,604,877
Investment cost refund	(9,019)	-
At December 31	<u>\$ 1,346,097</u>	<u>\$ 1,307,538</u>

- F. Investment segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value. Investment segment sets up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensures compliance with the related requirements in IFRS Accounting Standards.
- G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at December 31, 2023	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	<u>\$ 1,111,304</u>	Net assets value	Discount for lack of marketability	13%~19% (18%)	The higher the discount for lack of marketability, the lower the fair value.
	<u>\$ 220</u>	Market comparable companies	Discount for lack of marketability	29%	The higher the revenue multiple, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value.
			Revenue multiple	0.86

			Expected equity value volatility	57%	
			Net value multiple	5.42	

- H. The Company has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect on profit or loss or on other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

		December 31, 2023

Note 1: The information of transactions between the Company and the consolidated subsidiaries should be noted in “Number” column.

(1) Number 0 represents the Company.

(2) The consolidated subsidiaries are numbered in order from number 1.

Note 2: The transaction relationships with the counterparties are as follows:

- (1) The Company to the consolidated subsidiary.
- (2) The consolidated subsidiary to the Company.
- (3) The consolidated subsidiary to another consolidated subsidiary.

Note 3: The prices and terms to related parties were not significantly different from transactions with third parties, except for particular transactions with no similar transactions to compare with. For these transactions, the prices and terms were determined in accordance with mutual agreements.

Note 4: In calculating the ratio, the transaction amount is divided by consolidated total assets for balance sheet accounts and is divided by consolidated total revenues for income statement accounts.

Note 5: For balance sheet accounts, transactions exceeding 1% of the consolidated total assets should be disclosed; for income statement accounts, transactions exceeding 1% of the consolidated total revenue should be disclosed. All the transactions had been eliminated when preparing consolidated financial statements.

Note 6: The aforementioned transactions with related parties were based on the financial statements of the company for the same period which were audited by independent auditors.

F. The Company's remuneration policy:

Directors and managers:

- (a) The Company's Articles of Incorporation do not provide for remuneration for directors. No remuneration is paid to all directors.
- (b) The remuneration and attendance fees for directors (including independent directors) were distributed in accordance with the "Regulations for the Distribution of Remuneration for Directors" adopted by the Board of Directors.
- (c) Directors (including independent directors) received fixed remuneration and attendance fees. No variable remuneration was paid by the Company.
- (d) For directors or their representatives who were employees of the Company or its associates or employees who have investment relationship with the Company, no remuneration and attendance fees were paid to them.
- (e) Managers' compensation includes fixed salaries, performance bonuses, and employees' remuneration, and the salaries are determined based on industry standards and managers' positions, ranks, education (work experience), expertise, and duties. Bonuses are distributed based on each business unit's contribution to the Company's profit. Employees' remuneration is set based on the business performance of individual managers.
- (f) According to the Article 28 of the Articles of Incorporation, if the Company has any profit for the current year, 5% to 7% of the profit shall be set aside for employee remuneration. The managers' remuneration is evaluated on a regular basis in accordance with the "Regulations for the Distribution of Remuneration for Managers," which specify that the managers' remuneration shall be distributed based on each business unit's contribution to the Company's profit presented in the income statement. The remuneration policy for managers is adjusted from time to time according to the actual management conditions and relevant laws and regulations.

Employees:

- (a) Sticking to the principles of legality, fairness, justice, and equality, the Company offers employees the best work environment and competitive remuneration packages in a voluntary, honest, and reliable manner. The salary system meets the legal requirements, and the overall remuneration is higher than the general level in the industry.
- (b) The Company has established a compensation system that includes performance bonuses and employee bonuses. As the Company grows, the compensation system allows the Company to share its operating profits with employees based on their performances.
